Required fields are marked * Choose your email: Popular Posts Easy Online BPO Software is a unified platform for processing telephone calls, SMS, MMS and faxes. Providing a unified contact center platform for those who demand a phone system that is easy to use, and does not require steep learning curves, the solution provides a series of tools and services to aid operators in handling any call, from simple answering and transfer calls, to processing sales, collecting debts, selling merchandise, customer service, and telemarketing. The most popular features of the Easy Online BPO system include an automatic call distribution system (ACD) which creates a personalized treatment paths based on the type and priority of calls that an operator takes, and an advanced reporting system that enables agents to easily create various reports in accordance with their daily work schedule and can be used for enhanced customer service and management. The Easy Online BPO system can also connect to third-party systems such as salesforce.com,

QuickBooks and ADP, making it easy for agents to access customer and company information in real-time. Easy Online BPO has been developed to be extremely simple and intuitive to use. Users will experience little to no learning curve, as the solution was designed by IT professionals, and thus provides an easy-to-use interface, so that even people with little technical knowledge can use the product. Easy Online BPO comes in both standalone and cloud-based editions. It is available in two versions; Easy Online BPO Basic and Easy Online BPO Deluxe. The Basic edition provides a basic set of features to service agents and businesses alike. The Deluxe edition, on the other hand, is an advanced version of Easy Online BPO, which provides additional features to companies and business owners that have a need for more extensive tools. Features of the Easy Online BPO basic edition include an interactive call manager, inbound and outbound call queues, an automated call
