Weeny Free PDF to HTML Converter is a straightforward and approachable software utility which enables you to turn PDF documents into HTML files in just a few clicks. It comes packed with several standard settings that should be easy to figure out by users, regardless of their previous experience with PDF processing software. Ad-supported application with an intuitive GUI The setup procedure does not take a long time to finish. However, since it is ad-supported, Weeny Free PDF to HTML Converter offers to download and install third-party components that it does not actually need to work properly. These offers can be skipped if you pay close attention, though. When it comes to the interface, the utility adopts a regular window with a neatly organized structure, where PDF files can be added to the task list with the help of the file browser only, since the drag-and-drop method is unsupported. Batch processing is possible, which means that you can work with multiple items at the same time to speed up the entire process. Set a page range or merge all files Encrypted PDFs can be added as well, and the app will prompt you for the password. It is possible to process all pages or just specific ones by specifying a range. The task list shows the full path, page count and range for each file. All you have to do is indicate the output directory and click a button to immediately start the conversion operation. Before doing so, you can set the app to either create a separate HTML file for each PDF doc, or to merge all items into a single one. There are no other noteworthy options available here. Evaluation and conclusion There were no kind of issues in our tests, since the tool did not hang, crash or display error notifications. It is very responsive to commands and creates HTML files rapidly while remaining light on the system resources. All in all, Weeny Free PDF to HTML Converter serves its purpose and can be used by anyone to easily turn PDFs into HTML files in just a couple of clicks. Too bad it does come packed with advanced settings for more experienced users, such as HTML previews or page layout customization. "I'm a voice for the people out there," Ken says. He's been working at the mental health facility since last summer. "The people who suffer from mental illness, they're not evil people. They're not bad people. They're like everyone else in the community," says Ken. "They're all equal. Everyone is equal. All are equal to one another." He says he hopes to be able to help his clients. "I don't want them to feel bad about themselves. I want them to tell me their story, and I want the world to see. I don't want them to be invisible," says Ken. Ken's friends are coming to his first-ever concert, a benefit for the mental health facility where he works. He says one of his goals as a rapper is to help his community and others like him.
